Membership Testimonials

The Glenwood Chamber has been a great place to meet people and to make connections in the community. Adam Decker encouraged me to join when I first moved to town last summer. Because of that recommendation, I met my financial advisor, found a support group of fellow Veterans, and started teaching classes through Junior Achievement. As a mortgage advisor, I've also been able to build relationships with several real estate professionals in the area. The Chamber has been pivotal in helping me to build my business and to feel like a part of the Glenwood Community.

– Jason Marshall, Local Business Owner with Arbor Financial & Rifle Climbing Center

Community is what drives us in what we do and in the business decisions we make. As small business owners entering the community, our first connection for local engagement was through the Glenwood Springs Chamber Resort Association (GSCRA). Our membership has provided an opportunity to connect with other business owners and stakeholders. Growing our network roots our presence as local business partners and strengthens our commitment to positively engage our community in meaningful ways. During times of adversity, the GSCRA has been a platform for sharing supportive resources to help our operation navigate uncertainty with confidence. I encourage anyone establishing a small business in the community to get connected and engage with the GSCRA to enhance visibility and grow valuable relationships.

–Heather Montross-Cowan, Co-owner & Operator of Defiance Rafting Company.
